REVEIW OF MARKETS 44/2c.; molasses sugar, 3%c.; refined,

New York, April 6.—Stock prices slumped badly to-day and closed active and weak at about the lowest. Crop advices were not favorable and these were given color by the advance in wheat, but the principal cause for the shaking of confidence was a renewal of stringency in the call money market. Discrimination in loans in certain Industrials and Specialties made some brokers disinclined to carry marginal accounts for some of these properties. This attitude was taken advantage of by the bear contingent and promiscuous selling of the general specialty group. Among the more conspicuous extreme breaks were Brooklyn Transit, 10; Metropolitan, 8; Manhattan, 7½: Consolidated Gas and American Steel, 7 each; Federal Steel and Tobacco about 5 each, and many others in this group from 3 to 4. Some of these stocks closed above the lowest, Brooklyn Transit, Manhattan and Consolidated Gas being conspicuous. The declines in the more active railways approximated two each. The acknowledged buil leaders, presumably having liquidated, seemed apathetic in stemming the downward course of properties with which they are identified. There were occasional rallies apparently only to afford a new level from which to let go stocks. The recent continued advance in many stocks, which eliminated much of the short interests, made the decline rapid, as there was no support from this quarter. Many stop loss orders were uncovered, thus accelerating the decline. London early purchased about as much as it sold yesterday, but the market there followed local quotations so nearly that arbitrage business ceased.

There was much money borrowed early on call around six and eight per cent.

clons so nearly that arbitrage business ceased.

There was much money borrowed early on call around six and eight per cent. on raliways, but 2 per cent. or more in addition was exacted on industrial collateral, and 12 per cent. for call loans was reached at times during the day. Before the close money was offered down from 8 to 4 per cent. on railroad collateral after the more urgent requirements for money had been met, but later loans were made at 6 per cent. The continued high rates for money has not brought as much money from outside points as expected. Boston, however, loaned some money in New York to-day. The demand for money for interest and dividend payment together with the recurrent necessity of financing ladustrial companies, were assigned as the reason for the present scarcity of funds.

ty of funds.

Heavy offerings of the active issues were made in the bond market to-day, coincident with the decline in stocks. Total sales, \$2,790,000.

United States 5's advanced ¼ and the 3's and new 4's ¼ in the bid price.

The total sales of stocks were 970,400 shares.

The Cotton Markets.

The Cotton Warkets.

NEW YORK COTTON MARKET.
New York, April 6.—The demand for cotton futures was quite active this morning and of a general character. The opening call developed firmness at an advance of 2@4 points on the remote positions, while the nearer months opened at unchanged prices to an advance of 1 point. The remote deliveries maintained a firm relation to the general list throughout the session owing to advices of cold rains in Texas and extremely low temperature, to a great extent, elsewhere. Covering upon an extensive scale was a feature of the early market in good part on Liverpool and other foreign orders. These were directed largely towards the near positions and resulted in their ultimately moving up until the advance was a series at that on the late positions. Still later the general market showed more or less irregularity resulting from an alternating mood on the part of the local contingent, who were influenced by the somewhat conflicting character of weather accounts and cotton planting gossip. The average of the English public cables was not satisfactory, although the liberal sales of the English public places at Liverpool was due to buillish weather accounts from this side. Light receipts also served to check selling, While the foreign content work of the later deliveries. Southern to good grades the advance on futures at Liverpool was due to buillish weather accounts from this side. Light receipts also served to check selling, While the foreign contingent bought the near positions quite freely they were disposed to sell the later deliveries. Southern to good grades, 20 to 21,5003,00; Northern white, \$2,0007,25 per bag; new sweets Hayman, 90.,631.00 per barrel. APPLES—Northern, \$1,5006,00 per barrel. APPLES—Northern, \$1,500 per case. BANNANS—Por bunch, O R and N 40 U S Leather 715 eign to O S L 415 U S Leather 715 sell O S L 15 Leather 715 sell O sell the later deliveries. Southern orders were not numerous and were about evenly divided between long and short sides of the market. Some predictions of frost to-night over the greater part of the cotton belt and estimates of smaller receipts made all classes of traders cautious during the afternoon. Taking the session as a whole, the volume of trading was only fairly full, with a disposition to hesitate and hold off for further developments and hold off for further developments respecting the new crop. The market closed steady at a net advance of 2@4 points.
